

Chinese Immersion Summer Camp 2009

The YingHua International School's **Chinese Immersion Summer Camp** is designed to give children ages 3 to 10 a unique opportunity to spend their summer having fun learning or improving in the Chinese language. Students are grouped according to both age and language proficiency.

The camp runs from June 22 through September 4, Monday through Friday, 9 am to 3:30 pm (with half-day option of 9 am to 12:30 pm to younger students). Extended care is available from 7:30 to 9 am and from 3:30 to 6 pm.

Every morning students participate in activities integrating language, math, science and social studies, centered on the weekly theme. Beginner students will learn basic language skills to supplement the vocabulary linked to each theme, while advanced speakers will have plenty opportunities to hone on their reading and writing skills. In the afternoon, students take part in different types of arts and cultural activities that may include drawing, painting, collage, crafts, cooking, drama, music, water games, swimming, and other sports.

The camp offers an excellent teacher-to-student ratio of 1:6, and is staffed by experienced teachers.

4:00-6:00 pm	Individual tutoring, Guided activities, Free play 小组活动

Sample Weekly Thematic Activities:

“Food Fantasy” - Treat your children to a fun and enjoyable session that is all about food! Students will engage in classroom activities which will not only teach them about nutrition and international cuisine, but will also allow them to learn the vocabulary necessary for purchasing, preparing, ordering, and tasting food.

“Undersea World” – Get your swim suit ready and embark with us as we learn about the oceans. Students will discover an underwater universe as they learn to speak about the incredible life that surrounds salty water, and to creatively and artistically express the wonder.

“Art Celebration” – Expand your artistic horizon with us in this creative unit where students experiment with various forms of arts. In addition to learning about the expressions of colors, shapes, lines and light, students will also learn to present their artistic products via multiple media.
